

Refining, Fuel quality, and Operational considerations resulting from MARPOL Annex VI

Mr. Rob Cox, Technical Director, IPIECA, London.

Mr. Rob Cox has over twenty-five years of international petroleum industry experience including fifteen years field experience in environmental aspects of refining, retail marketing and shipping as an expatriate with Caltex (now Chevron) in Africa, the Middle East and the United States.

Until recently Rob was seconded to the position of program manager of the IOGP-IPIECA Joint Industry Project on Oil Spill Response which was established to understand and implement the oil spill response lessons learned from the 2010 Gulf of Mexico incident. Rob currently manages the IPIECA Marine Issues Task Force which is working with members, various stakeholders and the International Maritime Organization (IMO) in the lead up to the January 2020 global sulphur cap on marine fuels.

Rob holds a Bachelor's degree in Chemistry and Biochemistry from the University of Dundee in Scotland and a Postgraduate Diploma in Environmental Practice from Farnborough College of Technology in England.
